

Lecture Series

Infection Biology

Winter Term 2019/2020

21 Oct	Introduction to Infection Biology and (Innate) Immune Defense Arturo Zychlinsky HGS
11 Nov	Parasitic Infections Anton Aebischer HGS
18 Nov	Modelling of Infectious Diseases Dirk Brockmann HGS
25 Nov	Innate Immuno Recognition of Bacterial Viability Leif Erik Sander HGS
02 Dec	Bacterial Infections in Human Carcinogenesis (<i>H. pylori</i>) Thomas F. Meyer HGS
09 Dec	Vector biology in Microbial Infections (<i>Plasmodium</i>) Elena Levashina HGS
06 Jan	Bacterial Persister Cells – the other way of therapeutic resistance Marcus Fulde MPI IB
13 Jan	Bacterial Respiratory Tract Infections Bastian Opitz MPI IB
20 Jan	Epidemiology of Highly Pathogenic Microorganisms Fabian Leendertz HGS
27 Jan	Ticks and Tick-borne Diseases Ard Nijhof MPI IB
03 Feb	Herpesviruses – new concepts of antiviral therapy Elke Bogner HGS
10 Feb	Sexually transmitted Bacterial Pathogens Dagmar Heuer MPI IB
17 Feb	Innate Immunity and Viral Evasion of HIV Christine Goffinet MPI IB
24 Feb	Herpes Viruses of Animals Benedikt Kaufer MPI IB
02 Mar	Infections with Parasitic Helminths Susanne Hartmann MPI IB

Mondays 5 – 6 pm

Venues

Humboldt Graduate School (HGS)
Room 144
Luisenstr. 56, 10117 Berlin

Max Planck Institute for Infection Biology
(MPI IB)
Seminar Room 1/2
Charitéplatz 1, Campus Charité Mitte,
10117 Berlin
